**GENERAL NOTES - SALES TIPS ETC**

The latest development in the Pest-Stop range of outdoor animal repellers. No other product has this many features, including three separate frequency settings, covering virtually all outdoor animal pests. Wide angle of coverage, but cover does not extend upwards, making it easy to confine the effect to your own property. Works on motion sensor or on timer. LED indicators show when power is operating, and also when sound is being emitted. Has test button to check correct frequency and satisfactory operation. Easy to install, with ground mounting kit and wall mounting kit, allowing product to be set at any angle, left or right. Optional solar power kit allows use in any location.

# EC DECLARATION OF CONFORMITY

## INTRODUCTION

The CE mark may only be shown on this product if it has a valid Declaration of Conformity with EC electrical directives, and if they comply with the Directive on the use of hazardous substances (RoHS Directive).

A Declaration of Conformity is only valid if:-

- A) It is signed by the manufacturer, if the manufacturer is located within the EC, or
- B) It is signed by an authorised representative of the manufacturer, who must be an EC resident  
**(This means that a so-called Declaration of Conformity provided by a manufacturer outside the EC is invalid)**
- C) The name and address of the person signing the declaration must be given
- D) The name and address of the independent Notified Body which has given a positive statement of opinion must be given
- E) If the product is owned by a company, the company must be identified and the logo of the company, or brand logo of the product must be shown on the Declaration.

**In the absence of a valid Declaration of Conformity, all responsibility for product safety rests with the person selling the product. Non-compliance with the above is an offence punishable by imprisonment.**

We, the undersigned,

<b>Manufacturer</b>	Not released. Available for inspection by authorised bodies
